

# APSACS Tiny Forests Project

The best time to plant a tree was 20 years ago. The second best time is now.  
~Chinese Proverb

According to the UN  
Each year,  
**10 million hectares of forest**  
are destroyed (2015-2020)

## What's Next!

Based on  
**'Miyawaki Method'**  
APS&Cs students  
will plant  
**TINY FORESTS**

APSACS will  
strive to  
continuously  
generate  
programs to  
achieve **SDG-15**

## Interesting Facts

- Tiny forests capture up to **30 x times more CO<sub>2</sub>** than traditional tree plantation
- Plants grow **10 x times faster** & **30 x times denser**

## Outcomes

- Increased knowledge & awareness
- Strong community/ parents partnerships
- Confidence & enhanced interpersonal skills
- Informed decision making
- Reduction in air pollution & noise pollution
- Improved mental health

World has approx 422 Trees for every person  
Pakistan has approx 5 trees per person

- Every APS student will plant **5 x trees** per year
- In one year **1,250,000 x trees** will be planted
- In 5 years **6,250,000 x trees** will be planted by APS students
